

SONG JOURNEY

"All Along the Watchtower"

Bob Dylan · made famous by Jimi Hendrix

Thread song — it appears across all 5 modules

One song, five layers. Each module adds a new skill to this song. Layer 6 is a bonus — a three-part Hendrix-style lead.

Form	One loop, repeating under every verse and every solo
The loop	Am · G · F · G
Who plays it	Dylan sings over it; Hendrix solos over it
Rhythm	Teaching layers: 2 beats per chord. No capo.
Tempo	Practice at 60 BPM. Play-along track: 115 BPM.

LAYER 1 Listen

Module 1

This song exists twice: Dylan's original and Hendrix's cover. Same three chords, very different guitars.

1. Listen for which guitar is acoustic and which is electric.
2. Listen for how each version feels.
3. Listen for the Am · G · F · G loop repeating underneath.

Do it: Listen to the opening minute of both versions.
Decide which guitar is acoustic and which is electric.
Name one word for how each version feels.

You've got it when: You can hum the main hook from memory.

Level up

Listen once more. Find where the main solo changes from melody, to slide, to wah pedal.

LAYER 2 Bass Line

Module 2

Three notes on the low E string carry this whole song: the roots of the Am · G · F · G loop. This riff was your Module 2 assessment piece.

Bass loop · low E string · one lap = two bars

	A	A	G	G	F	F	G	G	(loop)
e	-----	-----	-----	-----	-----	-----	-----	-----	
B	-----	-----	-----	-----	-----	-----	-----	-----	
G	-----	-----	-----	-----	-----	-----	-----	-----	
D	-----	-----	-----	-----	-----	-----	-----	-----	
A	-----	-----	-----	-----	-----	-----	-----	-----	
E	--5---5---3---3--	--1---1---3---3--							

Play it: Pick one note per beat at 60 BPM. Each root twice before it changes.
Run 4 laps without stopping.

Index on fret 1 (F). Ring on fret 3 (G). Pinky on fret 5 (A).

You've got it when: You can play it from memory at 60 BPM, no stops.

Level up

Pick each root twice per beat instead of once. Same frets, same order.

Level up · same notes, twice the speed · one lap = one bar

	A	A	G	G	F	F	G	G	(loop)
e	-----	-----	-----	-----	-----	-----	-----	-----	
B	-----	-----	-----	-----	-----	-----	-----	-----	
G	-----	-----	-----	-----	-----	-----	-----	-----	
D	-----	-----	-----	-----	-----	-----	-----	-----	
A	-----	-----	-----	-----	-----	-----	-----	-----	
E	-5-5-5-5-3-3-3-3--	-1-1-1-1-3-3-3-3--							

LAYER 3 Power Chords

Module 3

Same three roots you played in Layer 2 — each note now also plays the note a fifth above it. One two-string shape sliding along the low E string.

Power chords · root on low E, 5th on A · one lap = two bars

	A5	A5	G5	G5	F5	F5	G5	G5	(loop)
e	-----	-----	-----	-----	-----	-----	-----	-----	
B	-----	-----	-----	-----	-----	-----	-----	-----	
G	-----	-----	-----	-----	-----	-----	-----	-----	
D	-----	-----	-----	-----	-----	-----	-----	-----	
A	--7--7--5--5--	--3--3--5--5--							
E	--5--5--3--3--	--1--1--3--3--							

Play it: Strum once per beat at 60 BPM. Each chord twice before it changes.

Run 4 clean laps. Land every change on the beat.

Keep your grip — one shape, your arm does the moving.

You've got it when: The loop runs at 60 BPM, every string ringing clean, no stops.

Level up

Change chords every beat instead of every 2 — same 60 BPM, twice the changes.

Level up · power chords, one per beat · 60 BPM

	A5	G5	F5	G5	(loop)
1	2	3	4	1	2 3 4

LAYER 4 Pentatonic Solo

Module 4

The loop is in A minor, so A minor pentatonic Pattern 1 fits every bar — this is the fret shape Hendrix used for most of his solos. Start with three notes and leave gaps of silence between them.

Three rungs. Climb them in order.

Rung 1 · Rule of 3 — start here

Three starting notes · A minor pentatonic Pattern 1 · 5th position

	E	G	A
e	-----	-----	-----
B	-----	-----	-----
G	-----	-----	-----
D	-----5-----7-----		
A	--7-----		
E	-----		

Play it: Loop the chords (play along, or with a partner on Layer 3).

Improvise 4 bars on the 3 notes, then 4 more adding 1 note from Pattern 1.

Start or end every phrase on A — the home note.

Rung 2 · The whole box

Ready for more than 3 notes? This is the whole box — A minor pentatonic Pattern 1 at the 5th fret. Run it up and back down, then improvise using any note in it. Every note fits all 3 chords — keep landing on A.

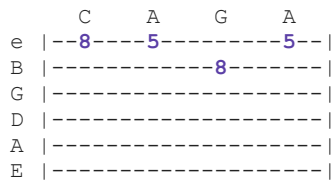

The whole box · A minor pentatonic Pattern 1 · 5th position

e	--5-----8-----
B	--5-----8-----
G	--5-----7-----
D	--5-----7-----
A	--5-----7-----
E	--5-----8-----

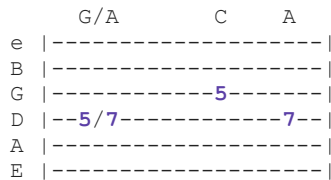

Rung 3 · Two Hendrix-style licks

Two licks (short solo phrases) from the same box to start your solos. Learn them exactly, then change them: change one note, change the rhythm, make them your own.

Lick 1 · down and back up · quarter notes, lands on A

Lick 2 · the slide-in · lands on A

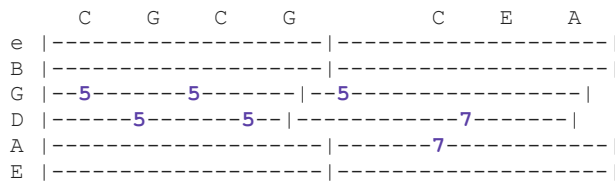

You've got it when: You've climbed all three rungs — licks show up in your solos.

Level up

Start a phrase during the F bar and resolve it on the Am bar — real tension and release.

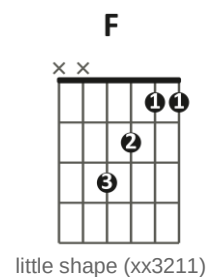

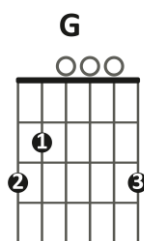

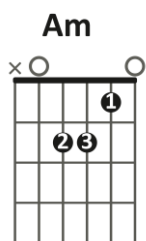

Level up · tension and release · 2 bars

LAYER 5 Open Chords

Module 5

The simple singalong version — closest to how Dylan actually plays it. The same loop becomes full open chords you strum and sing over.

little shape (xx3211)

Singalong loop · 2 beats per chord · 60 BPM

| Am G | F G | (loop)
1 2 3 4 1 2 3 4

Play it: Down-strum, 2 beats per chord, 4 loops.

Listen for it — this is the same song you played in Modules 2 and 3, finally sounding full.

You've got it when: The full loop runs at 60 BPM with every change on the beat.

Level up

Trade loops with a partner playing Layer 3 power chords — Dylan and Hendrix at the same time. Use the Layer 3 chart above.

LAYER 6 Hendrix Lead**Bonus**

Optional harder challenge, no score. Best once Layer 4's pentatonic box feels automatic.

Hendrix never just strums this song — his guitar answers the vocal with short fills (a fill is a short extra run between main parts). Three parts below, all from the Pattern 1 box you learned in Layer 4.

Rung 1 · Part A — the verse answer

Part A · the verse answer · one note per beat · 60 BPM

	Am		G		F		G
	A	C	A	G	C	G	A

Play it: One note per beat at 60 BPM, hand in 5th position — index fret 5, ring fret 7.
Bar 1 asks: A, C, A, G. Bar 2 answers: C, G, and lands on A — let it ring 2 beats.

Rung 2 · Part B — the entrance

Part B · the entrance · slide into A

	Am		G		F		G
	G/A	C	D		C	A	

Play it: Slide up the D string, fret 5 into fret 7 — pick once, glide, land on A.
Let it ring 2 beats, then answer: C, D, C, home to A.

Rung 3 · Part C — the climb and the fall

Part C · the climb and the fall · quarter notes

	Am		G		F		G
	A	C	D	E	C	A	G

Play it: Bar 1 climbs the box a note at a time: A, C, D, E.
Bar 2 leaps to the peak and falls home: high C, A, G, land on A.

Level up

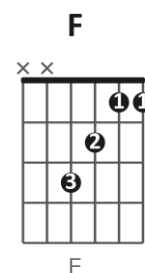

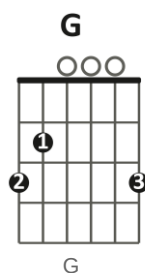

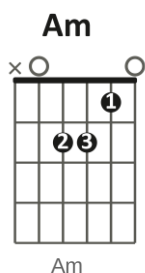

Play it the way Hendrix does: strum a lap, add Part A, strum again, open the next lap with Part B, and save Part C for the ending.

CHORDS

[Intro]

G
Am G F G x4

[Verse 1]

Am G F G
There must be some kind of way out of here,
Am G F G
Said the joker to the thief.
Am G F G
There's too much confusion;
Am G F G
I can't get no relief.
Am G F G
Business men they, they drink my wine,
Am G F G
Plowmen dig my earth.
Am G F G
None of them along the line.
Am G F G
Know what any of it is worth.

[Solo 1]

Am G F G x4

[Verse 2]

Am G F G
No reason to get excited,
Am G F G
The thief, he kindly spoke.
Am G F G
There are many here among us
Am G F G
Who feel that life is but a joke,
Am G F G
But you and I, we've been through that

Am G F G
And this is not our fate,
Am G F G
So let us stop talking falsely now -
Am G F G
The hour is getting late.

[Solo 2]

Am G F G x16

[Verse 3]

Am G F G
All along the watchtower
Am G F G
Princes kept the view
Am G F G
While all the women came and went,
Am G F G
barefoot servants too.
Am G F G
Outside in the cold distance
Am G F G
a wildcat did growl.
Am G F G
Two riders were approaching
Am G F G
and the wind began to howl.

[Outro] (with ad-lib vocals)

Am G F G x9
