

SONG JOURNEY

"Let It Be"

The Beatles

Thread song — it appears in all 5 modules

One song, seven layers. Each module adds a new skill to this song. Layers 6 and 7 are bonus.

Form	Verse loop → Chorus turnaround → back to the verse, all the way through
Verse chords	C · G · Am · F
Chorus chords	Am · G · F · C
Rhythm	On the record: two beats per chord. Practice tempo: one bar per chord.
Tempo	Practice at 60 BPM. The record feels like 71 BPM.

LAYER 1 Listen

Module 1

The original is piano, not guitar. Listen for the C–G–Am–F pattern carrying the verse.

1. Listen for the piano playing the chord pattern.
2. Listen for how little else the song needs.
3. Listen for the chorus turnaround that leads back to the verse.

Do it: Listen to the first verse. Count the bars — how many beats does each chord get before the next one arrives? _____

You've got it when: You can hum the main hook from memory.

Level up

Listen once more. Find the chorus turnaround leading back to the verse.
What changes? _____

LAYER 2 Single Notes

Module 2

Every chord in the loop has a root, and the roots make a bassline you can play right now: C · G · A · F. It crosses between the A and E strings.

Root line · low E and A strings · 4 beats per note

	C	G	A	F
e	-----	-----	-----	-----
B	-----	-----	-----	-----
G	-----	-----	-----	-----
D	-----	-----	-----	-----
A	--3-----	-----	--0-----	-----
E	-----	--3-----	-----	--1-----

Play it: 4 beats per note at 60 BPM.

Say each note name out loud.

You've got it when: 2 clean laps at 60 BPM, crossing between the A and E strings, without looking down.

Level up

Play the same four roots using only the low E string.

Level up · roots on the low E string only · 4 beats per note

	C	G	A	F
e	-----	-----	-----	-----
B	-----	-----	-----	-----
G	-----	-----	-----	-----
D	-----	-----	-----	-----
A	-----	-----	-----	-----
E	--8-----	--3-----	--5-----	--1-----

LAYER 3 Power Chords**Module 3**

Optional harder challenge. No score.

Same roots as Layer 2, same frets — each note now also plays the note a fifth above it. This layer covers the whole loop: verse, then the chorus turnaround back to the start.

Verse: C5 · G5 · A5 · F5 Chorus: A5 · G5 · F5 · C5

Power chords · low E and A strings · one chord per bar

	C5	G5	A5	F5
e	-----	-----	-----	-----
B	-----	-----	-----	-----
G	-----	-----	-----	-----
D	--5-----	-----	--2-----	-----
A	--3-----	--5-----	--0-----	--3-----
E	-----	--3-----	-----	--1-----

	A5	G5	F5	C5
e	-----	-----	-----	-----
B	-----	-----	-----	-----
G	-----	-----	-----	-----
D	--2-----	-----	-----	--5-----
A	--0-----	--5-----	--3-----	--3-----
E	-----	--3-----	--1-----	-----

Play it: 4 beats per chord at 60 BPM. One soft down-strum per beat.
Move both fingers together when you change chords.

You've got it when: 2 laps, clean and soft. Every change lands on beat 1.

Level up

Play one lap loud and one lap gentle — hear how the same shapes carry two moods.

LAYER 4 Pentatonic Solo**Module 4**

The song is in C major, and A minor pentatonic shares every note with C major — the same Pattern 1 shape you already know, with a different home. End your phrases on C and the solo sounds hopeful, like the song.

Four rungs. Climb them in order.

Rung 1 · Rule of 3

Your three starting notes · Pattern 1 (5th position), home is C

	A	C	D
e	-----	-----	-----
B	-----	-----	-----
G	-----	-----	-----
D	-----	-----	-----
A	-----	-----5-----	-----
E	--5-----8-----	-----	-----

Play it: Put on the backing track. Improvise 8 bars over the C · G · Am · F loop.
Start or end every phrase on C. C is the home note.

Rung 2 · The whole box

The whole box · Pattern 1, 5th position · home is C (low E, fret 8)

e	--5-----8-----
B	--5-----8-----
G	--5-----7-----
D	--5-----7-----
A	--5-----7-----
E	--5-----8-----

Play it: Run the box up and down, softly. Then improvise anywhere inside it.
Still land on C (low E, fret 8) to keep it major.

Rung 3 · Hammer-ons and slides

h = hammer-on. Pick the first note, then tap the higher fret with your ring finger.

/ = slide. Pick once, keep pressing, slide up.

Dress-ups in the box · Pattern 1 at fret 5 · h = hammer-on, / = slide

Play it: Practice each move slowly. The second note must sound clearly.
Then add them to your three-note phrases.

Rung 4 · Two melodic licks

Lick 1 · ascending · rises to G

Lick 2 · descending · lands on C

Play it: Learn each lick exactly. Then change one note or the rhythm.

You've got it when: Your solo uses the box, a hammer-on or slide, and one lick.

Level up

Call and response. Play 2 bars that end away from C. Then play 2 bars that end on C.

Here is one to start with. Then make your own.

Level up · call and response · 4 bars

LAYER 5 Open Chords

Module 5

Now the whole progression as open chords — the shapes you know: C, G, Am, F. Use the small F (top four strings, xx3211). One full bar per chord, unhurried, to get the shapes and changes solid.

little shape (xx3211)

Verse loop · 4 beats per chord (practice tempo) · 60 BPM

C	G	Am	F	
1 2 3 4	1 2 3 4	1 2 3 4	1 2 3 4	

Play it: 1 down-strum per beat, 4 beats per chord.
One full verse loop, every change landing on beat 1.
Start forming the next chord on beat 4.

You've got it when: The full loop runs at 60 BPM with every change on the beat.

Level up

Once this feels easy, play it twice as fast: two beats per chord instead of four.
That's the record's actual speed.

Level up · two beats per chord · verse

C	G	Am	F	
1 2 3 4	1 2 3 4	1 2 3 4	1 2 3 4	

LAYER 6 Fingerpicked Verse

Bonus

Bonus layer. Optional harder challenge. No score.

Trade the strum for a soft 8-note roll, p-i-m-a-m-i-m-i, two notes per beat — the same song, now a lullaby.
Your thumb walks the bass note of each chord.

p = thumb · i = index · m = middle · a = ring. The thumb plays the bass note. The fingers stay on the G, B, and e strings.

thumb: A string, fret 3

thumb: low E, fret 3

thumb: open A

thumb: D string, fret 3

C arpeggio · p i m a m i m i · one bar

e		-----0-----	
B		-----1-----1-----1-----	
G		-----0-----0-----0-----	
D		-----	
A		-----3-----	
E		-----	

Play it: One bar of C, 2 notes per beat at 60 BPM.

p = A string fret 3 · i = open G · m = B string fret 1 · a = open e.

Then walk the verse — only the thumb changes strings.

The verse walk · thumb changes bass, one bar per chord · 60 BPM

	C	G
e	-----0-----	-----3-----
B	-----1-----1-----1-----	-----0-----0-----0-----
G	-----0-----0-----0-----	-----0-----0-----0-----
D	-----	-----
A	-----3-----	-----
E	-----	-----3-----

	Am	F
e	-----0-----	-----1-----
B	-----1-----1-----1-----	-----1-----1-----1-----
G	-----2-----2-----2-----	-----2-----2-----2-----
D	-----	-----3-----
A	-----0-----	-----
E	-----	-----

You've got it when: The verse loop C · G · Am · F runs at 60 BPM without stopping.

Level up

Cycle the full C · G · Am · F loop, one bar each, without breaking the pattern.

Or move to Layer 7 — the song's guitar solo, from your Layer 4 box.

LAYER 7 The Solo

Bonus

Bonus layer. Optional harder challenge. No score. Best once Layer 4's box feels automatic.

The guitar solo doesn't show off — it sings, like a second voice taking a verse. It rises, asks, then falls E–D–C, the same shape as singing "let it be," landing on home.

The solo · Pattern 1 box at fret 5 · one note per beat

	C	A	G	E	Am	D	F
	G		G		E		C
e	-----5-----				-----		
B	-----8-----8-----5-----				-----5-----		
G	-----				-----7-----5-----		
D	-----				-----		
A	-----				-----		
E	-----				-----		

Play it: 1 note per beat at 60 BPM, hand in 5th position.

Bar 1 rises: G (B string, fret 8), A (e string, fret 5), G, E (B string, fret 5).

Bar 2 falls: E, D (G string, fret 7), C (G string, fret 5) — hold C 2 beats.

You've got it when: The solo runs clean at 60 BPM, with the C held two full beats.

Level up

Play the whole arrangement: fingerpick a verse (Layer 6), strum the chorus (Layer 5), then play this solo as the lead — three layers, one guitarist.
