

SONG JOURNEY

"Luna"

Peso Pluma & Junior H

Thread song — it grows through Modules 1–5

One song, five layers. Each module adds a new skill to this song. Layers 6 and 7 are bonus requinto parts.

Form	Requinto intro → verse vamp (with one Dm early on) → the same vamp to the end
Chords	F · Am, with Dm swapping in once early on
Lead voice	The requinto carries the melody throughout the recording
Rhythm	6/8, felt in 2 — strum the two downbeats each bar
Tempo	Practice at 60 BPM. The record moves faster, in 6/8.

LAYER 1 Listen

Module 1

"Luna" is in 6/8. Two big beats to a bar, each one splitting into three. Tap along with just the two big beats and let the requinto play the rest.

Do it: Listen to the first verse.

Tap only the 2 big downbeats per bar — try not to tap all six.

You've got it when: You can hum the main hook from memory.

Level up

Listen again. Find the moment Dm swaps in, early in the song.

That's the only chord change outside F and Am.

LAYER 2 Single Notes

Module 2

"Luna" rides two chords — F and Am — so its bassline is just two notes: F (low E string, fret 1) and A (open A string).

Bass roots · low E and open A · 2 big beats each

	F	F	A	A
e	-----	-----	-----	-----
B	-----	-----	-----	-----
G	-----	-----	-----	-----
D	-----	-----	-----	-----
A	-----	-----	--0-----	--0-----
E	--1-----	--1-----	-----	-----

Play it: Play 2 big beats per note at 60 BPM, 4 laps.

F rings clean — no buzz.

You've got it when: You can play it from memory at 60 BPM, no stops.

Level up

Play the same 2 roots higher up, on the A string.

F moves to fret 8. A stays open.

Level up · F and A on the A string · 2 big beats each

LAYER 3 Power Chords**Module 3**

An unusual twist — this sierrano ballad isn't usually played with power chords. Optional harder challenge, no score.

Same two notes from Layer 2, now played as power chords — each note plus the note a fifth above it, one shape sliding along the neck. The riff swaps in D5 once, early in the song, before settling into the F5/A5 loop.

F5 · F5 · A5 · A5, with D5 swapped in once early on.

Power-chord loop · low E and A strings · 2 strums per bar, change every 2 bars

A	--5--5--	--3--3--	--3--3--	--7--7--	--7--7--
E	-----	--1--1--	--1--1--	--5--5--	--5--5--

Play it: Play 2 downbeat strums per bar at 60 BPM — nothing syncopated.

Change every 2 bars: F5, F5, A5, A5.

You've got it when: The loop runs at 60 BPM, every string ringing clean, no stops.

LAYER 4 Pentatonic Solo

Module 4

"Luna" lives in F major. Its relative minor is D, so D minor pentatonic Pattern 1 (root D, low E fret 10) is your box — the highest position of the semester.

Four rungs, one Module 4 skill each. Climb them in order.

Rung 1 · Rule of 3**Three starting notes · D minor pentatonic, Pattern 1**

	D	F	G
e	-----	-----	-----
B	-----	-----	-----
G	-----	-----	-----
D	-----	-----	-----
A	-----	-----10-----	-----
E	--10-----	--13-----	-----

Play it: Improvise over the chord loop.
End every phrase on D.

Rung 2 · The whole box**The whole box · D minor pentatonic Pattern 1 · 10th position**

e	--10-----13-----
B	--10-----13-----
G	--10-----12-----
D	--10-----12-----
A	--10-----12-----
E	--10-----13-----

Play it: Run the box up and down, then improvise anywhere inside it, still ending on D.

Rung 3 · Hammer-ons and slides

h = hammer-on. Pick the first note, then tap the higher fret with your ring finger.

/ = slide. Pick once, keep pressing, slide up.

Dress-ups in the box · h = hammer-on, / = slide

	C	D	F	G	C	D	D
e	-----	-----	-----	-----	-----	-----	-----

A	-----	-----	-----	-----	-----	-----	-----
E	-----	-----	-----	-----	-----	-----	-----

Play it: Practice each move slowly. The second note must ring clearly.
Then add them to your 3-note phrases.

Rung 4 · Two licks

Lick 1 · down and back up · lands on D

	F	D	C	D
e	--13--10-----10-			
B	-----13-----			
G	-----

D	-----10---12-			
A	--10---12-----

Play it: Learn each lick exactly first.
Then change one note or the rhythm.

You've got it when: You've climbed all 4 rungs — dress-ups and licks in your solos.

Level up

Slide the whole box down to fret 5 — that's A minor pentatonic. It fits this vamp too.
Compare how the 2 positions sound.

LAYER 5 Open Chords

Module 5

The whole song as open chords: F (the little shape, xx3211) and Am carry it start to finish as one vamp, with Dm making one brief passing appearance in the song's opening lines. Same 6/8 pulse — 2 downbeat strums per bar, nothing syncopated.

Verse vamp · 2 downbeats per bar · 6/8 felt in 2 · chord change every 2 bars

F	F	Am	Am	
1 2	1 2	1 2	1 2	

Play it: Play down-strums, 2 beats per bar, 4 laps — the change lands right on the downbeat, little F ringing clean.

In the song's opening lines, swap in Dm once.

You've got it when: The full loop runs at 60 BPM with changes on the beat.

Level up

Play the vamp and hum the melody. Then play 1 full verse without stopping.

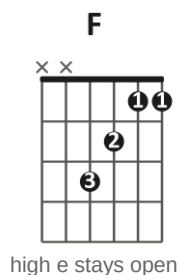

Level up · hum the melody · verse vamp

F	F	Am	Am	
1 2	1 2	1 2	1 2	
F	F	Am	Am	sing
1 2	1 2	1 2	1 2	

LAYER 6 Requinto Intro**Bonus**

Bonus layer — optional harder challenge, no score. Ready whenever you are.

The requinto opens the song with a roll through the little F shape you already know from Layer 5 (xx3211) — just leave the high e string open, and pick the notes one at a time instead of strumming them together.

**Intro riff · roll the little F, low to high**

	(roll ↑)
e -----0-----	
B -----1-----	
G -----2-----	
D -----3-----	
A -----	
E -----	

Play it: Pick D-string fret 3, G-string fret 2, B-string fret 1, then open e — one note at a time, each ringing into the next.

Repeat twice, then let it ring out before the vamp comes in.

You've got it when: The roll is smooth, low to high, and rings into a full F chord at the end.

Level up

Drop the roll in front of the Layer 5 vamp.

Or reverse it — high to low — for a variation.

Level up · roll reversed, high to low

	(roll ↓)
e -----0-----	
B -----1-----	
G -----2-----	
D -----3-----	
A -----	
E -----	

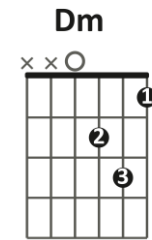

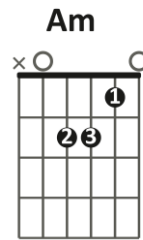

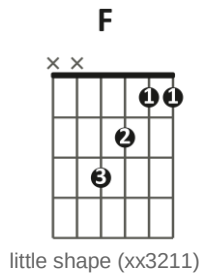

LAYER 7 Requinto Lead**Bonus**

Bonus layer — optional harder challenge, no score. Best once Layer 5 feels steady.

The requinto answers the singer all the way through, weaving its lead line around the same chord shapes you strummed in Layer 5. Part A lives down low, inside your chord shapes. Parts B–D follow the requinto up past fret 12 for the song's bridge — the highest position on the neck you've played all year.

Rung 1 · Part A — verse answers

Keep the chord shape held down and pick single notes out of it — every note is already under your fingers.

Part A · hold the shape, pick 2 notes per bar, let it ring

	F			Am		
	C	A	F	E	C	A
e	-----	-----	-----	0-----	-----	-----
B	--1-----	-----	-----	-----1-	-----	-----
G	-----2-	-----	-----	-----	-----2-	-----
D	-----	-----3-	-----	-----	-----	-----
A	-----	-----	-----	-----	-----	-----
E	-----	-----	-----	-----	-----	-----

Play it: Hold the little F for bars 1–2 — pick C, A, and land on F. Switch to Am for bars 3–4 — pick the open high e, C, and land on A. Notes fall on the big beats at 60 BPM; let each one ring into the next.

Rung 2 · Part B — home base at fret 12

For the bridge, slide your hand up until your index finger sits at fret 12 on the high e string — that's your new home. Pick fret 12, slide up to 13 without letting off pressure, then come back and let 12 ring.

Part B · the slide phrase · / = slide, keep pressing · (12) = let it ring

e	--12/13----	12----	-- (12) -----
B	-----	-----	-----
G	-----	-----	-----
D	-----	-----	-----
A	-----	-----	-----
E	-----	-----	-----

Play it: Big beats at 60 BPM. Play the 2-bar phrase, then repeat it once more.

Rung 3 · Part C — the climb to fret 17

The bridge peaks on a drumroll of repeated notes at fret 17 — your highest note of the year — then falls: 18, 13, slide down to 12. Count the drumroll with the full 6/8 count, one pick per number. Index at fret 17 (middle finger grabs 18), then hop your index down to 13 and slide it into 12.

Part C · the peak and the fall · drumroll, one pick per number, then 18, 13, slide to 12

e	--17-17-17-17-17-17--	--18--13--13/12--	-- (12) -----
B	-----	-----	-----
G	-----	-----	-----
D	-----	-----	-----
A	-----	-----	-----
E	-----	-----	-----

Play it: Parts B and C single-note first, big beats at 60 BPM, until you can run the whole bridge line twice without stopping.

Rung 4 · Part D — the sierrero sixth

The requinto doubles every bridge note with a partner note on the G string, both ringing together. Pairs: 17 with 17, 18 with 19, 13 with 14, 12 with 12. Pick hits the G string while your middle finger plucks the high e at the same moment.

Part D · the climb, in sixths — sound both strings together

```
e | --17-17-17-17-17-17-- | --18---13---13/12-- |
B | ----- | ----- |
G | --17-17-17-17-17-17-- | --19---14---14/12-- |
D | ----- | ----- |
A | ----- | ----- |
E | ----- | ----- |
```

Part D · coming home, in sixths

```
e | --12/13----12---- | -- (12) ----- |
B | ----- | ----- |
G | --12/14----12---- | -- (12) ----- |
D | ----- | ----- |
A | ----- | ----- |
E | ----- | ----- |
```

Play it: Add the G-string partners slow — 2 clean pairs in a row before you chain the phrase.

You've got it when: You can run the whole bridge line, sixths and all, twice without stopping.

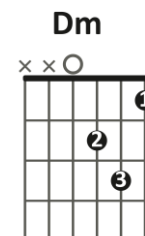

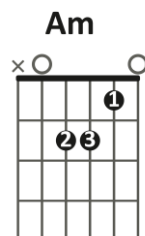

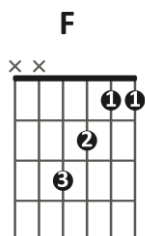

Level up

Stack the layers: open with the Layer 6 roll, play Part A over a verse, play the bridge in sixths, then return to the Layer 5 vamp.

Even better with a partner: one strums, one leads, then trade.
